

We are now 5 Years Old!

We are proud to announce that April marks the 5th Anniversary of Tame Valley Steelstock.

Thank you

A huge thank you to all our customers, to those who have been with us since day one and to those new customers that have come on board and stuck with us, we are well aware that it is loyal customers like you who are hugely responsible for keeping our doors open for business.

Our Mission

Our mission since day one back in April 2010 has not changed and we are even more committed to this 5 years on. Our aim from the start was to stock a comprehensive range of sizes, supply prime quality steel with a fast, efficient and flexible delivery service for the customer. In essence we wanted to be a **Sheet Steel Specialist** – we do not stock sections, beams, angles etc.. as we wanted to concentrate on what we do and know best which is Sheet Steel, this way we can offer an excellent range of sizes and thicknesses and we even stock many non standard sizes as an extra benefit for our customers. (Indeed if there is a special size that you use on a regular basis we are happy to keep it for you on our floor. Please discuss this with one of our sales team.) The other added benefit of specialising in sheet is that our wagons are only carrying sheet steel which is palletised and can be wrapped for protection, therefore

minimising the risk of damage that other products may do to the sheets in transportation.

On top of all this we wanted to offer excellent Customer Service with a personal touch. We want our customers to know that when they pick up the phone to TVS that there is always a friendly voice to take your call and help you with your requirements. We are all very knowledgeable and even for the most part know exactly the products that each individual customer uses on a regular basis!

It is this ethos that we firmly believe has enabled us to stand firm in the face of competition and grow the business to what we are today. Once again thank you all for your continued support.
